Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2016 - December 31, 2016

Filing Confirmation Number: 0007621021

Filing Deadline: March 23, 2017

FRN: 0004372322

Filing Date: 01/13/2017 11:36 AM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? No

Were you a small entity at any time during the three years prior to the end of the reporting period? No

Date that you ceased to be a small entity?

Company Information

Company Name: United States Cellular Corporation

Brand Names: U.S. Cellular
U.S. Cellular Corporation

PO Box:

Street Address: 8410 W. Bryn Mawr Ave.

City: Chicago

State: IL

Zip Code: 60631

Contact Name: Bill Tortoriello

Contact Phone: (773) 355-3356

Contact Fax: (773) 399-4984

Contact Email: bill.tortoriello@uscellular.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that were tested under ANSI C63.19-2007, and that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007, include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operation?

Yes

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Website address: www.uscellular.com/uscellular/services/hearing-aid.jsp

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: U.S. Cellular has a corporate website that lists all currently available wireless devices along with the applicable HAC ratings. The website contains a hyperlink to AccessWireless.org, a CTIA developed website that provides consumers with a greater understanding of the wireless industry and of those aspects of wireless technology which people with disabilities may find especially useful. U.S. Cellular device boxes are properly labeled with the relevant HAC ratings and device user manuals generally contain HAC information. Furthermore, U.S. Cellular's sales and customer service associates are educated about HAC requirements and can address questions regarding HAC issues from hearing impaired customers.

Methodology for Functionality Levels

U.S. Cellular strives to make the phone selection process for our customers with hearing aids as easy as possible. U.S. Cellular categorizes phones into two different categories, Basic and Smartphones, based on their levels of functionality.

Basic Phones:

Basic Phones are those that are primarily used for voice calls.

Smartphones:**BlackBerry**

These are voice and data-capable wireless devices (i.e. converged) that integrate voice calling, email access (corporate and personal), web browsing and PIM (calendar, contacts, tasks) all in one device. These devices use Research In Motion's BlackBerry operating system.

Windows Phone

These are voice and data-capable wireless devices (i.e. converged) that integrate voice calling, email access (corporate and personal), web browsing and PIM (calendar, contacts, tasks) all in one device. These devices use Microsoft's Windows Mobile operating system.

Android

These are voice and data-capable wireless devices (i.e. converged) that integrate voice calling, email access (corporate and personal), web browsing and PIM (calendar, contacts, tasks) all in one device. These devices use Google's Android operating system.

Apple iPhone

These are voice and data-capable wireless devices (i.e. converged) that integrate voice calling, email access (corporate and personal), web browsing and PIM (calendar, contacts, tasks) all in one device. These devices use Apple's iOS operating system. These are voice and data-capable wireless devices (i.e., converged) that integrate voice calling, email access (corporate and personal), web browsing and PIM (calendar, contacts, tasks) all in one device.

Report Remarks

U.S. Cellular currently has voice on CDMA only. LTE voice and voice over WiFi are not yet commercially available on the U.S. Cellular network.

You have reported the following handset model summary information.

Total number of handsets offered: 33

Air Interface	Fully Hearing Aid Compatible Number Percent		Acoustic Coupling Compatible Only Number Percent		Non-Compliant Handsets Number Percent	Total by Air Interface
